

Dear Small Business Owner,

LOOKING FOR AN EASIER WAY TO MANAGE CUSTOMER INFORMATION?

Are you frustrated by scattered customer information? Concerned about keeping track of customer relationships you've built? Need a better way to attract new customers and retain existing ones?

Our solutions featuring Microsoft Dynamics™ CRM Small Business Edition help you organize customer information that's critical to your business.

This software simplifies the way you capture, store, and share information by helping you:

- Set up appointments
- Run customer reports
- Relay information to new salespeople
- Find business leads

At MicroInformatix Consulting Inc. we specialize in working with small businesses and offer the benefits of an internal IT department without the cost of adding employees. To learn more, call today!

We look forward to working with you.
